FIGHT FOR POSSESSION OF SVEABORG FORT

Fifteen Hundred Soldiers Fight With People.

ORDER RESTORED AT SCATTUDIN

Russia Revolutionists Distributing Viborg and Group of Toil Manifestos. The Exact Number of Killed is Not as Yet Known.

Helsingfors, Finland, Aug. 2.—The fighting between the mutineers and the loyal troops was waged during most of the past night. Cannonade was heavy, the firing of the guns furnishing an awe-inspiring spectacle to the thousands dialing the points of vantage on observatory hill.

The loyal minority seemed to command the forts on Nicholai Island, which was engaged in a duel with Sandhamms formidable masked batteries. At 10 o'clock Wednesday morning they were still exchanging broadsides at ten minute intervals. The victims transported to Helsingfors numbered less than fifty, of which fifteen are dead, but thus far the number of killed or wounded in the Sveaborg hospitals has not been ascertained.

Order has been restored at Skattudin island where 1100 sailors and 11 officers have been disarmed.

From the civilian point of view the local situation is easier. No cruisers are visible. Troops are expected here but the destruction of the bridge near Riihima Ekt railroad station and the tearing up of the permanent way at several points, delays the arrival of reinforcements. The town is quiet, and business is proceeding, but the workmen are on a strike.

The diet at a sitting late Tuesday night issued an earnest warning to the population to abstain from participation in acts which might possibly gravely affect the whole country.

The revolt, it is pointed out, occurred on the anniversary of a mining disaster, which was caused by the recklessness of some officer, and resulted in the loss of a dozen of lives.

Copies of the Viborg manifesto of the outlawed parliament are being distributed among the Cossacks, who quietly put them in their pockets.

A naval squadron, including the battleship Slava, is reported to have sailed from Reval this afternoon for Sveborg.

The telegraph building here has been ruined, and the barracks and cathedral have been badly damaged by the fire of the 11-inch guns. The numbers of wounded and killed, have probably been over estimated.

The socialists are on the alert and the town people are in fear of a cannonade if the naval squadron arrives here.

There was a panic all day long on Tuesday among the summer residents on the islands of the archipelago owing to the fact that stray bullets, which caused a number of casualties both on the islands and in the city, dropping about.

A man sitting on a veranda of the yacht club was mortally wounded and a servant girl was killed.

For more than a week Russian revolutionists have been working among the troops, distributing the Viborg and Group of Toil manifestos, and it is reported that on Sunday 1,500 soldiers took an oath to fight on the side of the people.

Helsingfors, Finland, Aug. 2.—The news of the revolt has caused the greatest excitement at Cronstadt, especially in view of the report that a mutiny of the crews of the warships was proceeding at Cronstadt and that the revolutionists were working hard to persuade the troops there to mutiny and refuse to fire on the warships.

Precautions were hastily taken by the authorities at Cronstadt. The breech blocks of the guns on board some of the warships were removed, while detachments of troops were dispatched on board other ships.

Helsingfors, Finland, Aug. 2.—A heavy cannonading is in progress at Sveaborg, showing that the fighting for the possession of the main fortification is still in progress.

CASE APPEALED TO HIGH COURT

New Step in Famous Litigation is Made by Notable Prisoners.

Savannah, Ga., Aug. 2.—The case of Greene and Gaynor has been appealed to the United States circuit court.

The transcript of the grounds was forwarded Tuesday morning to Chas. H. Lesrum, of New Orleans, clerk of the court. The main ground named therein was the modus procendi of the drawing of the jury. This is thought to be the strongest of the grounds for the appeal though there are numbers of other grounds upon which the appeal is made.

The document was a bulky one. There were 25,000 folios of 100 words each, making a total of 2,500,000 in the bill.

It cost Greene and Gaynor just $1,000 to have the transcript prepared in the present form and it probably cost them $500 more to have it printed and put in shape to go on the records of the court of appeals.

The approximate cost of the appeal will be about $1,000, not including attorney's fees.

Confesses to Murder.

Washington, Pa., Aug. 2.—Feeling against the negro Elmer Dempster, confessed murderer of Mrs. Samuel Burns and her two children ran high intense, but order prevailed and few loiterers were about the jail. Officers Patterson and John Rucker. The two negroes accused in Dempster's second confession of the murder and robbery and John Kobota, a wealthy farmer near Independence, last December were lodged in jail Tuesday. The demeanor of Dempster is unchanged. The light manner in which he refers to the crime is amazing. He seemingly takes delight in telling how he shot down the defenseless woman and her little children. When the information charging him with murder was read to him in jail Dempster replied, "I don't want a hearing. I am guilty. Let it go at that."

Constitution for China.

Victoria, B. C., Aug. 2.—According to advices brought by the steamer Empress of Japan, Professor Hattori, who has returned to Japan from Pekin, says a commission headed by Prince Su, has undertaken a translation of the constitutions of the principal nations of the world, with a view to compiling a constitution for China. The work is not expected to be completed for 12 years. Arrangements are being made to issue a paper currency in China about a year hence.

Demands of Men Are Granted.

San Francisco, Aug. 2.—The Southern Pacific company has granted the demands of the freight handlers in the yards at Oakland, who went on a strike last week for more pay, but returned to work when the company promised to consider their wishes. The company agreed that men employed for more than 60 days should be paid 25 cents an hour and all new men 22½ cents until they worked 60 days.

Negro Leaps From Bridge.

Augusta, Ga., Aug. 2.—Either crazy or madly intoxicated, an unknown negro plunged headlong from the north Augusta bridge and was drowned. He had been on the streets all of the morning in a half-crazy manner, saying the yankees were planning to rob and burn his house. It is believed he is a criminal from some other town. After creating a disturbance he ran on the north Augusta bridge and jumped off into the water, 30 feet below, and his body has not been found.

Posse Pursuing Negro.

Desoto, Mo., Aug. 2.—Posses of enraged men are ranging over Jefferson, St. Francis, and St. Genevieve counties in pursuit of Arch Ransom, a negro accused of having made an attack at Valley Mines Jefferson county on Mrs. Celia Emaley Lizabeth Moore, aged 19, and Effie Moore, 11 years of age. Sheriff Thornton A. Hensley, of Jefferson county, is on his way here. It is believed Ransom is hiding in this vicinity.

RELIEF NOW CERTAIN FOR SUPREME COURT

House Concurred in Amendment of Senate.

LEGISLATORS ENJOY BARBECUE

Indigent Confederate Veteran or Widow of Veteran Was Defined for Pension Purposes as One Whose Estate Does Not Exceed $1,000.

Atlanta, Ga., Aug. 2.—[illegible] overburdened supreme court [illegible] assured, the house of representatives having on Tuesday concurred in the amendment of the senate providing that the terms of the [illegible] of the court to be voted by the people at the October election [illegible] two, four and six years [illegible] terms to be decided by lot.

The house amended the senate amendment by providing that the terms of the election shall be decided by the secretary of state and this amendment was then concurred in and the bill [illegible] the governor.

With applause from the members of the house and the hall crowded with ladies and gentlemen, the bill to create the new county of Polk was passed Tuesday morning. The new county is to be created from portions of Irwin and Worth counties with Fitzgerald as county seat, should the people, by the proposed amendment of the [illegible] at the October election. The bill was passed to substitute for the bill of Senator Wilcox. Much of the credit for the establishment of the new county is due to Mr. Wilcox, of Irwin who introduced a bill in the house for that purpose.

By a vote of 107 to 29 the house decided to define an indigent confederate soldier or the widow of a confederate soldier, to be one of pension purposes whose estate is not worth more than $1,000 and the income therefrom not more than $100 per annum, and who is at least 65 years of age and unable to do manual labor.

Upon motion of Mr. Hall of Bibb the house reconsidered its action of Monday in defeating the senate bill to increase the amount allowed the comptroller general for clerk hire. The bill proposes an amendment to the constitution, and takes its place at the foot of the calendar, where it will scarcely be reached unless it be made a special order. The bill was defeated by failure to receive 8 more affirmative votes to make the requisite constitutional majority of 117 votes.

At the afternoon session the bill of Messrs. Harduwan and Holder of Jackson, to require the owners and operators of cutting machines to provide certain appliances for the preservation of human life, was passed after the house adopted an amendment proposed by the authors of the bill providing that no civil liability should attach to persons from failure to observe the provisions of the bill. The bill requires owners of cutting machines to keep on hand a rubber tourniquet and a hypodermic syringe for the injection of saline solution to be made from tablets which shall be kept on hand.

An attempt was made to pass the bill of Mr. Kelly of Glascock, to mend the constitution so that the sum applied to the education of the white and negro races should be apportioned according to the taxes paid by each, but after a short discussion the bill was tabled.

The bill of Mr. Kelly of Glascock to require all patent and proprietary medicines sold in the state to bear the formula, was discussed after its third reading. Mr. Kelly and Mr. Whitley of Douglas spoke in behalf of the measure which is indorsed by the Georgia Pharmaceutical association, but the bill and the substitute therefor, were recommitted to the committee on hygiene and sanitation.

The house [illegible] several amendments to the Bell child labor bill, and the bill to allow towns and cities of [illegible] to elect [illegible] which county its sites shall be when it lies partly in two or more counties.

Wednesday the general assembly were the guests of President West, of the senate, and Speaker Slaton, of the house at a barbecue given by these two gentlemen at the Cold Springs barbecue grounds. Special cars left the Mitchell street entrance of the capitol at 2 o'clock in the afternoon direct to the grounds.

DOPE FIEND KILLS YOUNG WIFE.

Unable to Effect Reconciliation Husband Shoots His Wife to Death.

Mobile, Ala., Aug. 2.—Tuesday evening William Woods, of [illegible] Miss., shot and killed his young wife, Grace Woods, who had been living apart three months residing with her sister, Miss Thomas. It is said that the fact of separation was [illegible] to be a cause [illegible] of the [illegible].

Woods came to the city from [illegible] last Saturday for the purpose of effecting a reconciliation with his wife. He made several overtures which were unnoticed.

Tuesday afternoon about 5:30 p. m. he drank [illegible] and after [illegible] three lasting pearls [illegible] put a pistol from his pocket and shot his wife in the [illegible]. She fell to the floor and expired almost instantly. After the shooting Woods escaped.

ALACHUA BARBECUE WAS A BIG SUCCESS

More Than 1,000 People Present At Burnett's Lake Wednesday.

THERE WERE MANY SPEECHES

A Fine Dinner Was Served, and Those Who Attended Will Remember the Occasion As One of the Most Pleasant Events of Their Life.

From all reports, it is learned that the picnic and barbecue given at Burnett's Lake Wednesday by and under the auspices of the Alachua County Cotton Growers' Association, was a success from every standpoint. Only a few went from Gainesville, but those who were there state that the affair was one of the most systematically managed and one of the most enjoyable of its kind they had ever seen.

The meeting was called by the cotton growers for the purpose of bringing the members of the various associations of the State together, which was largely successful. Members of several cotton growers' associations throughout the belt were there, and many speeches were made which tended to enlighten the growers of the fleecy staple upon the proper and profitable way to do things.

There were present more than a thousand people. The good women came from every quarter with well-filled baskets, the men prepared hundreds of pounds of beef, mutton and pork, and the result was a big dinner for all, with no scarcity.

It is calculated that this meeting was one of the most beneficial ever held in the State for the cotton grower, and no one present has a regret to make.

DEEDS HAVE BEEN SIGNED.

Elks Will Occupy Turner Home Within The Next Two Months.

It was announced through The Sun a few days ago that Gainesville Lodge No. 990, B. P. O. E., had purchased the elegant Turner property, corner West Liberty and Pleasant streets, and would convert the same into a home.

The deal is an absolute certainty now, since all deeds have been signed, and the property has been transferred to the committee in fee simple.

The committee will make its report at the next meeting, which will be on next Thursday night, when it is believed that a committee on building will be appointed. It will be the purpose of this committee to at once make plans and ask for bids upon desirable alterations. As soon as the bids are completed it is expected that work will begin, and within the next two months the Elks will be in a home of their own.

The committee on securing a lot has done well, inasmuch as they secured both lot and building, and they are due the thanks of members of Gainesville lodge.

MR. SHEPHERD IS ACTIVE.

Over Sixty Years of Age, But Shows What a Hustling Man Can Do.

Editor Sun: A man can do a great deal if he only will try but the most of them are riding around hunting someone to work, and to do that which he could do while hunting someone to work for him.

I had six and one-half acres hammock that I wanted cleared up. No one would cut it down and pile brush or cut up the logs for less than $5 per acre. I went into it myself, cut down, piled the brush, cut and piled 180 logs from two feet in diameter down to six inches, besides the small poles, ready for the plow in thirty-one days by myself, sowed twelve acres in addition, cut them, tied them up, "shuddled" them and put in the barn, cultivated sixteen acres in corn and junders, set out over an acre of potatoes, a nice garden, ten acres in velvet beans, carried the timber down in the cave, put in the stairway 150 feet without any help.

I am over sixty years of age and have done all my work without any help. I have made a good crop.

Respectfully yours,
W. F. SHEPHERD.

SEEING A JOKE.

Sometimes One May Be Discovered Where It Does Not Exist.

A joke depends almost entirely on its environment for appreciation. Lots of our jokes would fall mighty flat, I guess, in Zululand or Siberia, just the same as the funny stories of those countries would be a dead weight over here. Every country has its own particular brand of humor, and to appreciate it to the full you must have been born in that country or lived there for many years. The Laplanders appear to us to be a pretty solemn race, but I dare say they have their little jokes about the quality of the oil they sometimes have to drink, and other subjects interesting to their mode of living.

In every country, too, there is a certain percentage of the people who couldn't see a joke however broad it might be. There are humorously dull people in Ireland as well as humorously bright people in Scotland. Why, some time ago I received a letter from an Irishman saying that he had read all my books from cover to cover, and he considered they were the most serious things ever published. He thought most of the stories would go fine if they were dramatized and put on the stage in the form of tragedies.

As to the British sense of humor being less keen than the American, there's nothing in it. English men and women are just as quick to see a joke as we are—sometimes a good deal quicker, and I know I never want more appreciative audiences than those I got in London. Why, they'd start laughing before I began, and when I'd come on to the platform and look at them in a solemn kind of way some of them would double up with merriment.

Sometimes, however, anticipation is a bit awkward—as, for instance, when a humorous lecturer being unable to appear his place was taken by a minister who wished to discourse on the evils of intemperance. The audience, it appears, was not informed of the change (there might have been a riot) and when the good man came on the platform and stated that his subject for the evening would be the curse of rum those present went into convulsions of merriment. The more grave and solemn the lecturer became the more the people rolled on their seats in ecstasies of mirth until at last the astonished divine closed his book with a bang and retired. Now, I dare say in that case the real lecturer would hardly have created so much amusement as did his substitute, which proves that a humorist with a reputation has something of a pull over the unknown man, though the latter may really be funnier.—Mark Twain.

Given Up to Die.

B. Spiegel, 1204 N. Virginia St., Evansville, Ind., writes: "For over five years I was troubled with kidney and bladder affections which caused me much pain and worry. I lost flesh and was all run-down, and a year ago had to abandon work entirely. I had three of the best physicians who did me no good and I was practically given up to die. Foley's Kidney Cure was recommended and the first bottle gave me great relief, and after taking the second bottle I was entirely cured." J. W. McCollum & Co.

Negro Attempts Assault.

Cincinnati, Aug. 2.—A special from Gallopolis, O., says that when the steamer Henry M. Stanley was 2 miles from the city early Wednesday, a negro entered the cabin of a Cincinnati passenger and attempted to assault her. He was discovered and driven over the side of the boat by the captain. As no trace could afterwards be found of him, it is believed that he was drowned.

From Frisco to Gotham in Auto.

I have used it constantly. I believe it to be the best medicine of its kind, and I wish all sufferers from these troubles to know the good Herbine has done me." Sold by W. M. Johnson.

Losing Hair

There is one remedy, just one—Ayer's Hair Vigor. It stops falling hair, cures dandruff, and keeps the scalp clean and healthy. We speak from long experience.

SKIN DISEASES

FIERY ACIDS IN THE BLOOD

All skin diseases are due to the same cause—an excess of acid in the blood caused by faulty assimilation of food and poor bowel action; the fiery acrid matter is forced to the surface through the pores and glands. Pustules are formed, discharging a sticky fluid which dries and makes a crust, causing intense itching. When the crusts or scabs are scratched off the skin is left raw and bleeding. Sometimes skin diseases are in the dry form, and bran-like scales come on the flesh, or the skin becomes hard and dry, often cracking, and the painful itching causes acute suffering. It does not matter how the trouble is manifested, the cause is the same—an excess of acid in the blood. Salves, powders, cooling washes, etc., while they relieve the itching and give the sufferer temporary comfort, cannot cure the trouble because they do not reach the acid laden blood. The best treatment for all skin diseases is S. S. S., a remedy that is purely vegetable and one which acts directly on the blood with a cleansing, healing effect. S. S. S. neutralizes the acids, and purifies the blood so that the skin instead of being blistered and burned by the fiery fluids, is nourished by a supply of cooling, healthy blood. Special book on Skin Diseases and any medical advice desired will be furnished without charge.

Dear Sirs—My body broke out with a rash or eruption which in spite of efforts to cure continued to get worse. The itching, especially at night, was simply terrible. I had tried many highly recommended preparations without benefit, and hearing of S. S. S. determined to give it a fair trial, and was inexpressibly delighted when a few bottles cured me entirely.

NEWS OF CITY AND COUNTY CONDENSED

W. R. Steckert and Chas S. Hill, land commissioner and civil engineer of the Cummer Lumber Company, respectively, have returned from Lake and Polk counties, where they have been on a surveying tour. They were compelled to return earlier than expected, owing to the fact that the water has been too high to accomplish a great deal in the woods.

James M. Turner of Lake View was in the city yesterday. Mr. Turner, who is one of the most progressive of farmers, is about to lose another daughter, Miss Annie Elizabeth, who will be married on Sunday, the 12th inst., to Wallace C. Niblack, a prominent young merchant of Fort White. Miss Annie is a popular young lady among her associates, all of whom will extend congratulations in advance, with a wish of much happiness in her married life.

A. S. Anderson, of the Dutton Phosphate Company, and Thos. Sexton of Ocala, left yesterday for Lennon, where they have gone to locate a large tract of timber land, which it is said will be purchased by the Dutton Phosphate Company. While nothing authentic can be learned at this time, it is said that this land contains large and valuable deposits of phosphate, and in the event that it is secured by the Dutton Company it will be opened up with great profit to the community in which it is located, and with great financial inducements to the company.

W. L. Goodwyn of Richmond, the clever traveling salesman of the Richmond Paper Company, was in the city yesterday and made The Sun an appreciated call. Mr Goodwyn has just returned from South Florida, where he reports a fine trade. He is happier than usual, since he has at his home in Richmond a fine boy who came to make home a comfort about two months ago. Mr. Goodwyn declares that the boy is the finest specimen in the United States, and will wager that he has the strongest voice for one of his age. His Florida friends will extend congratulations.

A Pretty Wedding

A pretty wedding was solemnized in the Christian Advent Church on Wednesday just before noon, the contracting parties being R. Frank Long and Miss Ada, daughter of M. Giddings, North Gainesville. Rev. J. C. Johnson performed the ceremony.

The contracting parties are well known and popular in this section. Miss Giddings is especially well known, having resided here for several years. She numbers her friends by the score, and as a mark of esteem for her the little church was crowded upon the occasion of the marriage.

Immediately after the ceremony the happy couple, with a few friends, were driven to the home of the bride's father, where a dinner was served, after which Mr. and Mrs. Long left for Grahamville on a bridal tour. They will be guests of Mr. Long's parents.

JUDGE MASON'S COURT.

Two Interesting Cases Have Been Before That Tribunal This Week.

Judge Mason has been quite busy in the county court for the past day or two, two cases of especial interest having been brought before that tribunal for disposal.

The first case was that of the State vs. Nathaniel Hodge and Hugh Studstill, upon the charge of larceny of a domestic animal. This case occupied a great deal of the time of the court, there being about twenty-five witnesses in the matter.

The specification was to the effect that a certain steer, the alleged property of J. S. Bailey, was killed by one of the defendants and purchased by the other as a marketman.

All the witnesses were not present, and the case was postponed until August 17th for further hearing.

R. A. Thrasher appears for the State, while J. M. Rivers represents the defense.

The head of the steer was produced as part of the evidence.

The case of J. S. White vs. the Seaboard Air Line, damage—trespass on the case—was brought up. Testimony and argument were submitted, and the decision of the court has been reserved.

Attorney George Scofield is representing the plaintiff, while Attorney W. E. Baker appeared for the defense.

WILL MOVE TO ATLANTA.

Mr. Scroggins, Who Was Injured, Will Go to His Georgia Home

Because his mother is anxious to have him by her side, so that she may look after his wants with that motherly love which is deeper and dearer than any other, Mr. Scroggins, the roofer who was severely injured a few days ago by falling from the roof of one of the University buildings, will be taken to Atlanta today, where he will have the treatment of his mother and other near relatives.

Mr. Scroggins, when injured, was taken to the National Odd Fellows' Home, where he received the very best attention. His injuries were of a very serious nature, but through the careful work of the physicians his life was saved, though he is yet in a condition far from safe.

Mr. Scroggins, it will be remembered, fell from a roof while he was engaged in tiling. He fell for a distance of fifty feet, sustaining injuries from which he has suffered a great deal. He has had the best of attention, however, and the physicians feel that he will recover with proper care.

TELEPHONE EXTENSIONS

East Florida Telephone Company Making Fine Progress Towards South.

The East Florida Telephone Company is still growing in popularity and extending its lines from Gainesville to various points. The system has afforded a most excellent advantage to the people throughout this section, and is constantly being extended.

The company has been engaged for the past few weeks constructing lines of their own, also lines south of Dunnellon for the Dutton Phosphate Company, Buttenbach & Co. and the Camp Phosphate Company. C. C. Voyle, superintendent of the company, who has had his crew at work in the vicinity of Dunnellon for the past three weeks, expects to return with his crew in about ten days.

Having a Big Time

Louis C. Lynch and Henry Davis, who have been in attendance at the Grand Lodge of the Brotherhood and Protective Order of Elks in Denver, are still sojourning in the West, and Thursday telegraphed The Sun from Pike's Peak that they were having "the biggest kind of a time". The telegram sends personally to H. H. McCreary, who is an Elk, fraternal greetings, and concludes with the statement that the thermometer registers fifty-four degrees, and that the ground is covered with snow.

Messrs. Lynch and Davis expect to return to their homes here after spending a couple of weeks in Colorado, visiting the principal points of interest.

Quality Did It!

The fact that SCHNAPPS is so widely imitated only proves that it is the best chew—the standard flat plug. Other plugs are made to imitate the size and shape and color of SCHNAPPS—other tags are made to look like SCHNAPPS tags—yet there are more pounds of SCHNAPPS chewed annually than all other similar tobaccos.

Schnapps

SCHNAPPS is made of only choice selections of well matured, thoroughly cured leaf, and in factories as clean as the cleanest kitchen, situated in the very heart of the greatest chewing tobacco growing country, by men of life-long experience in tobacco manufacturing, and who have directed the R. J. Reynolds Tobacco Company since 1875.

SCHNAPPS has the pleasing, appetizing aroma which created and popularized the fondness for chewing. Expert tests prove that it requires and takes a smaller amount of sweetening than any other kind—and has a wholesome, stimulating and satisfying effect on chewers.

Internal revenue statistics show that SCHNAPPS and other of the Reynolds brands won enough chewers in one fiscal year to make a net gain of six and a quarter million pounds, or one-third of the entire increased consumption in the United States on chewing and smoking tobacco.

Be sure the letters on the tag and under the tag spell S-C-H-N-A-P-P-S, and you will have the genuine.

Rate Has Been Withdrawn

Agent Goodwin of the Atlantic Coast Line has received instructions from the management to withdraw the special rate from Gainesville to Worthington Springs, effective at once.

The rate provided for the sale of tickets on Saturday and Sunday, good returning Monday, for 75 cents, which was just one fare for the round-trip. Many Gainesville people who like to spend a day or two at this popular resort were well pleased with the arrangement, but his information will probably give them reason for regret.

It is not known why the rate was withdrawn—but of course there must be a reason for it.

SOFTNESS OF SEALSKIN.

Is Rivaled by Human Hair Where Dandruff is Eradicated.

Sealskin is admired the world over for its softness and glossiness, and yet the human hair is equally as soft and glossy when healthy, and the radical cause of all hair trouble is dandruff, which is caused by a pestiferous parasite that saps the vitality of the hair at its root. Newbro's Herpicide is the only preparation that is fatal to the dandruff germ. Without dandruff there is no falling hair, but a luxuriant growth of glossy, soft hair is certain. Scouring the scalp won't cure dandruff. Kill the dandruff germ. Thousands of women owe their beautiful suits of hair to Newbro's Herpicide. Sold by leading druggists. Send 10c in stamps to The Herpicide Co., Detroit, Mich.

The "Roosevelt style" of resting would make some men wonder what you call work.

It now appears that Canada's meats, also, are not what they are tinned up to be.

English contractors are being fined for selling bad meat to the army. They do some things differently over there.

An honest man is never afraid of the police. An honest manufacturer or packer should dread no inspection.

A Philadelphia man promises to put flying machines on the market at $1,000 each. Put in your order now before they go up.

King Leopold defies the world to interfere with his slaughter of millions of helpless natives in the Congo, and the world accepts his bluff.

A correspondent says Mexico is a bad place for moneyless men. In this it may not differ from the places where they are now located.

Learn to carry out your ideas, to plan your ambitions and make them workable. Finish your tasks and end one before you begin another.

In eight years the population of Osaka, Japan, has increased from 811,800 to over 1,026,000. The number of factories has increased by 991.

A Georgia preacher says he expects to meet more editors and reporters in hell than members of any other profession. He doesn't explain what he is going to do there.

A Kansas man published the declaration that the water below a dam was softer than that above it, and after every scientist in the State had taken a fall out of him, explained that the fall over the dam broke the water.

THE "GOOD FELLOW."

Very many men attain a wide reputation within the wide circle of their acquaintance of being "good fellows" when the men themselves know that it is undeserved and that the term "bad fellows" would more nearly fit their case. Of course there are hosts upon hosts of men—far more than the world at large know of—who are in truth good fellows in every sense of the word, but it is a fact, nevertheless, that in numerous instances the designation applied to men whose only title thereto is won at the cost of disquiet and anxiety at home and among friends and possibly among broken hearts and ruined lives. Viewed from merely the selfish standpoint a young man cannot afford to be known as a "good fellow," as the term is commonly understood, much less to be one. In its proper sense as being an agreeable companion, everyone should endeavor to be such and the first place in which to show this good fellowship is the home.

Let us all bear this fact in mind: All subsidies, petty or great, are paid out of the revenue collected by taxation from the pockets of the people. The idea that this government is rich is a false idea. It has nothing but what it takes from the poor man's pocket. The rich pay Federal taxes only in the proportion of the number of rich to the number of poor, and that is an insignificant proportion; and even that proportion is offset by the special "protection," or advantage, which the tariff gives the rich over the poor.

Almost daily do we hear or read of cases of connubial infelicity and so serious has the divorce menace become, that sometimes we are led to wonder why some man of wisdom has not promulgated a law whereby people who contemplate committing matrimony shall stop and seriously consider what they are about. Too frequently they rush into the yoke in haste, only to repent having done so when it is too late to remedy the trouble without working a great hardship upon innocent persons.

Attorney-General Moody has been forced to admit that Judge Parker's contention that all the laws under which the Federal government has prosecuted the trusts and corporations existed prior to 1904. Will President Roosevelt and Secretary Cortelyou also acknowledge that Judge Parker is right, or will they still deny it as was the case about his other charge that the corporations were contributing to the Roosevelt campaign fund in 1904, which has also been proven, but never acknowledged.

Senator Warner and Congressman Ellis are telling the people of Missouri that Congress at its next session will give revision of the tariff its earnest consideration. Will these two innocent Republican ducklings explain how the tariff could be revised at a short session of Congress? The Protective Tariff League will be after their scalps if they talk that way. Don't these "kid congressmen" know that the Republican program is to stand pat?

The busy men and women of the world are they who have attained to greatness. Many such have endured hardships and practiced rigid economy to enable them to meet the demands of a large family and the greatest men this country has produced have been men who have labored with hands and brain, after acquiring a competency, remembering the years that are gone, admit that their working years were their happiest years.

Deafness Cannot be Cured

By local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucus lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by catarrh, which is nothing but an inflamed condition of the mucus surfaces.

We will give One Hundred Dollars for any case of deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars, free.

A bill providing a uniform method of naturalization throughout the country was passed by Congress. The bill requires that admission to citizenship shall not be granted in not less than two years after the declaration of intention. The seventh section provides that "no person who disbelieves in or who is opposed to organized government" shall be naturalized. The bill provides also that no alien shall hereafter be naturalized who cannot speak the English language. The law goes into effect ninety days after approval.

Here's a chunk of good news for our old maids, if they can only be induced to confess their real ages: A genius who is a member of the Legislature and who feels sorry for the lonely old maids has a plan to get a law passed that when the single women get to be thirty years old, that they shall be allowed the privilege of picking out a man for a husband, and if he refuses when proposed to, he must pay a fine, one half to go to the old maid he wouldn't accept.

The initial number of The Alachua Post, Alachua, published by McCord & Heckard and edited by S. R. McCord, the senior member of the firm, has been received. It is a neat paper, six pages, and is full of interesting news. The Sun wishes The Post and its publishers much success in the new field, and there is no reason why they should not have it.

We are judged by results, not by empty longings and aspirations that get nowhere. One small result is worth heaps of grand, soggy intentions that never get beyond the threshold of a lazy brain.

A Cleveland woman is suing for divorce because her 18-year-old husband smokes cigarettes. She ought to have made him show his fingers before she married him.

President Roosevelt speaks of two kinds of demagogues, one the grasping rich man and the other the whining poor man. One is about as bad as the other.

St. Augustine will soon have a thorough and up-to-date street railway system.

The National Guard Association will hold their annual meeting in St. Augustine during the State rifle competition.

The Salvation Army treated the poor children of Pensacola to a picnic on Santa Rosa Island. The day will long be remembered.

The question of renaming certain streets in Tampa and adopting a new plan of numbering the houses is still a serious proposition before the members of the city council.

A capital stock of six thousand dollars has been subscribed at Lake City for the establishment of a cotton warehouse company. The progressive people of that city should now get together.

The fire chief of Pensacola had his horse and buggy stolen from him one day last week. But as the buggy was the one that the chief used when going to a fire and contained a large gong, it will be easy to identify.

At a meeting of the County Sea Island Cotton Association, held at Mayo last Saturday, a corporation was formed for the purpose of building a warehouse in which farmers are to store their cotton and hold same for better prices.

It is said that when the Continental at Atlantic Beach closes this season the big hotel will not open again until its doors are opened to tourists who alight at Key West on their way to Cuba. This great structure, four stories high, is to be moved from Atlantic Beach to Key West on barges.

He neglected to take Foley's Kidney Cure at the first signs of kidney trouble, hoping it would wear away, and he was a victim of Bright's disease. There is danger in delay, but if Foley's Kidney Cure is taken at once the symptoms will disappear, the kidneys are strengthened and you are soon sound and well. A. R. Bass of Morgantown, Ind., had to get up ten or twelve times in the night, and had a severe backache and pains in the kidneys, and was cured by Foley's Kidney Cure. J. W. McCollum & Co.

Blocks Plans of Electric Road.

East St. Louis, Ill., Aug. 2.—After several hand to hand encounters among the 500 employes of the Louisville and Nashville railroad and the Illinois Traction company during which several pistol shots were fired, the Louisville and Nashville officials ditched two engines on a disputed crossing and effectually blocked the plans of the Electric road for tearing up its tracks. No one was seriously hurt.

IN STRICT CONFIDENCE.

Women Obtain Mrs. Pinkham's Advice and Help.

She Has Guided Thousands to Health.—How Lydia E. Pinkham's Vegetable Compound Cured Mrs. Alice Berryhill.

It is a great satisfaction for a woman to feel that she can write to another telling her the most private and confidential details about her illness, and know that her letter will be seen by a woman only.

Many thousands of cases of female diseases come before Mrs. Pinkham every year, some personally, others by mail. Mrs. Pinkham is the daughter-in-law of Lydia E. Pinkham and for twenty-five years under her direction and since her decease she has been advising sick women free of charge.

Mrs. Pinkham never violates the confidence of women, and every testimonial letter published is done so with the written consent or request of the writer, in order that other sick women may be benefited as she has been.

Mrs. Alice Berryhill, of 313 Boyce Street, Chattanooga, Tenn., writes:

Dear Mrs. Pinkham:—

"Three years ago life looked dark to me. I had ulceration and inflammation of the female organs and was in a serious condition.

"My health was completely broken down and the doctor told me that if I was not operated upon I would die within six months. I told him I would have no operation but would try Lydia E. Pinkham's Vegetable Compound. He tried to influence me against it but I sent for the medicine that same day and began to use it faithfully. Within five days I felt relief but was not entirely cured until I used it for some time.

"Your medicine is certainly fine. I have induced several friends and neighbors to take it and I know more than a dozen who had female troubles and who to-day are as well and strong as I am from using your Vegetable Compound."

Just as surely as Mrs. Berryhill was cured, will Lydia E. Pinkham's Vegetable Compound cure every woman suffering from any form of female ills.

If you are sick write Mrs. Pinkham for advice. It is free and always helpful.

No Danger to Americans.

New Orleans, Aug. 2.—The box cars with chalk slate written on their sides the origin of the scare that posters declaring death to foreigners have been distributed throughout Mexico was the statement of George W. Holmes, representing a St. Louis and Memphis investment company, who is in New Orleans on his return from a trip through nearly every state in Mexico. "This talk of danger to Americans in Mexico is absolute foolishness," Mr. Holmes said. "The only place where there is the least chance of trouble is in the state of Sonora, where conditions have been unsettled for several years."

The End of the World

Of troubles that robbed E. H. Wolfe of Bear Grove, Ia., of all usefulness, came when he began taking Electric Bitters. He writes: "Two years ago kidney trouble caused me great suffering, which I would never have survived had I not taken Electric Bitters. They also cured me of general debility." Sure cure for all stomach, liver and kidney complaints, blood diseases, headache, dizziness and weakness or bodily decline. Price 50c. Guaranteed at all drug stores.

CHICKEN THIEVES TO APPEAL.

Men Heavily Sentenced for Stealing a Widow's Chickens.

Columbus, Ga., Aug. 2.—Stonewall Ford, a white man who was sentenced to six months at hard labor without the alternative of a fine by Justice of the Peace J. S. Kimbrough, in Phoenix City, Ala., on the charge of stealing a widow's chickens, has just returned from the Alabama coal mines.

He and Bud Payne, another white man, were given the same sentence and although they gave notice of appeal, they failed to give bond. On the very day that Ford arrived at the Alabama coal mines to serve out his sentence, he was unfortunate enough to have one of his fingers cut off. His father, who is a citizen of Griffin, Ga., has just made the requisite bond and effected his son's release.

The appeal from Judge Kimbrough's sentence will now be passed upon by a higher court. Judge Kimbrough holds that under the law he can sentence a defendant to 12 months hard labor if he deems it necessary and proper to do so. But from the other man who was sentenced he has not yet made bond.

Fire Damages Big Building.

Atlanta, Aug. 2.—The building and equipment of the Foote & Davies Printing company, 61-67 East Alabama street, was seriously damaged by a fire which was discovered on the third floor of their building at about 8:30 o'clock Tuesday night. The fire originated about some machinery on the third floor and the firemen fighting through the skylight had it under control soon after their arrival. Six companies responded and more than a dozen streams of water were used in extinguishing the blaze. It was impossible to estimate the exact loss, but it is thought that it will run up to a considerable amount, probably over $10,000, the building and machinery being pretty badly damaged by fire smoke and water

Farmer Injured by Car.

Macon, Ga., Aug. 2—Abner H. Davis, a farmer sixty years of age, who resides at Pope's Ferry, was knocked from the tracks on the cemetery belt line on Third street almost opposite the Kress store and an ugly gash was cut in his head. He was both deaf and dumb, and while on the track did not hear the gong of the approaching car. The motorman realized when he was too near that the man could not hear. The farmer was knocked to one side and was clear of the track. He was taken up after half an hour and hurried to the city hospital where the wounds were dressed. He will recover.

Savannah, Ga., Aug. 2—Judge Norwood, of the city court, is determined to do his part toward closing up saloons in Savannah on Sunday. Fero Alamaros faced Judge Norwood and pleaded guilty to a charge of keeping open on Sunday. He was fined $500 and costs and in default thereof, will have to serve 12 months on the county chaingang. Judge Norwood called attention to the practice and explained how pernicious it was. He said that excursionists came to the city and got into all sorts of trouble and made Sunday anything but a day of rest in certain quarters.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

Origin of the Fairy Cinderella.

It has been said, "Not one girl in a thousand knows the origin of the friend of her childhood, Cinderella." Her real name was Rhodope, and she was a beautiful Egyptian maiden who lived 670 years before the common era and during the reign of one of the twelve kings of Egypt. One day Rhodope ventured to bathe in a clear stream near her home, leaving her shoes, which were very small, lying on a bank. An eagle, passing above, caught sight of the little sandals, and, mistaking them for a toothsome tidbit, pounced down and carried off one in his beak. The bird unwittingly played the part of fairy godmother, for, flying over Memphis, where the king was dispensing justice, it let the shoe fall directly at the king's feet. Its size, beauty and daintiness immediately attracted the royal eye, and the king determined to know the wearer of so cunning a shoe. Messengers were sent through all the kingdom in search of the foot that it would fit. Rhodope was finally discovered, the shoe placed on her foot, and she was carried in triumph to Memphis, where she became the queen of King Psammeticus.

Here's a Spelling Lesson.

Students in a London school were recently asked to write this: "A gluttonous sibyl with her glutinous hand complacently seized a sieve, a phthisical ichneumon, a noticeably supercilious, irascible and cynical sergeant, an embarrassed and harassed chrysalis, a shrieking sheik, a complaisant prosecute and an anonymous chrysolite. These all suddenly disappeared down her receptive esophagus. She simply said: 'Pugh! Not saccharin.' She then transferged a billion of bilious mosquitoes, an unsalable bouquet of dachsias, lilies, dahlias, hyacinths and phlox, a liquefied idellium, an indelible defamatory inflammatory synchronism and a debatable syllogism to the same capacious receptacle. Peacably surrendering her daguerreotype to the ecstatic aeronaut, she descended with her parachute—a synonym for barouche—and grievously terrified the stolid, squalid yeomanry already tortured by the heat, 101 Fahrenheit."

A MODERN ARCADIA.

Nowhere Are Life and Property So Safe as In Labrador.

A traveler who recently visited the coast of Labrador says that nowhere on earth are life and property held so sacred as in that little known and barren land. A thousand miles of lonely seaboard, along which is scattered a population of some 10,000 people, about one-third of whom are white, would seem to give every opportunity for crime, yet there is no police officer of any kind, no court and no jail. Nor are they needed. The only criminal charge within fifty years was one against an Eskimo, who shot a rival in love.

In addition to the resident population the coast is visited every summer by about 10,000 Newfoundland fishermen, and, while Newfoundland itself is not by any means free from evil-doers, none appear to come among the fishers or else the example of the natives of Labrador causes them to refrain from any wrongdoing while there. Years ago a circuit court visited the coast every summer, but as it found nothing to do it was abolished. Now should any serious charge be made against a man a magistrate would be sent from Newfoundland to investigate it.—Harper's Weekly.

READ THIS.

STEVENSON, Ala., June 6, 1901.

Dr. E. W. Hall, St. Louis: Dear Sir—I have been a great sufferer from bladder trouble for two years and my case was of a very severe nature, compelling me to have several painful and dangerous operations. I have also taken many different remedies. I took Swamp Root for three years and Warner's Safe Cure two years and they only gave temporary relief. After having two operations and preparing for the third, I saw your Texas Wonder advertised and purchased a bottle. I got almost immediate relief and have continued to improve ever since. My doctor said my bladder had grown together in three places, and I was suffering almost death. No man living can say more than I can for your Texas Wonder, and I call it a world's wonder, and I hope all who suffer will give it a trial. Wishing you success, I am Yours truly,

W. C. DANIEL.
